Greetings. This ML10-12 SLA is a 12V 10AH Sealed Lead Acid (SLA) rechargeable maintenance free battery has a characteristic of high discharge rate, wide operating temperatures, long service life and deep discharge recover. We hope this provided clarity. Please call us at 855-378-7135 for additional questions.

The battery will be charged via solar cell panels. However, I'm more concerned about the discharge rate. I've read that lead acid battery not should be discharged too quickly, as this might result in overheating the battery (and cause damage to it). How do I figure out what a safe maximum discharge rate is for a 12V lead acid battery?
