

32A aluminum acid battery price

MIT engineers designed a battery made from inexpensive, abundant materials, that could provide low-cost backup storage for renewable energy sources. Less expensive than lithium-ion battery technology, the new architecture uses aluminum and sulfur as its two electrode materials with a molten salt electrolyte in between.

CHILWEE - China professional maintenance free lead acid electric vehicle battery manufacturers and suppliers. Our factory offers the best custom made batteries with competitive price for famous brands. Be free to wholesale or buy discount maintenance free lead acid electric vehicle battery for sale here and get quotation from us.

Aluminium-air batteries (Al-air batteries) produce electricity from the reaction of oxygen in the air with aluminium. They have one of the highest energy densities of all batteries, but they are not widely used because of problems with high anode cost and byproduct removal when using traditional electrolytes.
