Energising Communities in Papua New Guinea. At Puma Energy, we always put our customers first - offering a great all-round experience all-day every day. We're passionate about serving ...

On many indicators, Papua New Guinea's rapid population growth is outpacing development progress. Service delivery across the country is in decline. Growing urbanisation is increasing the burden on service providers as people who move from rural areas generally lose access to their customary land and become less self-sufficient. More than 40 per cent of the ...

Abstract Lae City (LC) of Morobe Province is the second-largest city in Papua New Guinea. Due to the abundant natural resources it inherits, the resultant urbanization has led to an influx of the human population. This increase in population as a result of industrialization has led to increased municipal solid waste (MSW) accumulation. To address this exigent issue, ...

Energy storage. Energy storage is of particular interest to large energy-intensive businesses, especially those who need to ensure electricity reliability and availability. For corporations ...

Energy literacy represents a foundational process in democratizing energy, particularly in efforts to tackle energy poverty, a term used to describe a lack of access to modern forms of energy. Evidence suggests that energy access on its own is insufficient to lead to sustained, positive, social impacts for those who are currently energy poor. We contend here ...

This flyer outlines the status of solid waste management in Papua New Guinea and recommends key points for action to address challenges facing the country related to solid waste management.

With a strong decade on the horizon for mining and energy in Papua New Guinea, Business Advantage PNG is set to publish its first special edition devoted solely to these sectors. As PNG's resources sector gears up for an anticipated decade or more of new investment, with an estimated US\$50 billion pipeline of projects lined [...]

Providing affordable housing has been a long-standing issue for governments of most countries. In an attempt to address the issue, affordable housing programs have been introduced with the aim of improving household's access to housing, as well as sustain their wellbeing. This paper reports on a study of the activities of affordable housing program (AHP) ...

There is no perhaps other country in the world that has such a complex story to tell about mining than Papua New Guinea (PNG) (e.g. Connell, 1997) - despite the often geologically young nature of PNG mineral deposits and an abundance of mineral and other natural resources, it remains contentious as to whether mining's promise has been fulfilled.

Energy Imports Net (% of energy use): It is estimated as energy use less production, both measured in oil equivalents. A negative value indicates that the country is a net exporter. Energy use refers to use of primary energy before ...

Originally, we set-up in Papua New Guinea to support one of the world's largest publicly traded international oil and gas companies on the major offshore oil project, PNG LNG, however our demonstrated, ongoing success has grown into a much larger business scope, and we are now by far one of the largest employment agencies in Papua New Guinea, with a client portfolio of ...
