

Battery Hotspot

5240mAh W-20 Battery, Higher Capacity Replacement Battery for Netgear Nighthawk 5G WiFi 6 Mobile Hotspot, AT& T W-20 M5 MR5000 MR5100 MR5200 MR5200-100EUS Mobile Hotspot Router. 4.3 out of 5 stars 54

The touch screen hotspot offers 12 hours of battery life and has a built-in USB-C port for fast-charging other devices. It supports up to 10 simultaneously connected devices. GlocalMe also allows users to download a free app to track their data usage and add more data to their line in the event that they run out.

Battery life heavily depends on how you use the hotspot. When we streamed video over low-band 5G, which is basically 4G LTE with a cherry on top, we got 11 hours and 45 minutes of runtime.

The whopping 18 hours of battery life outperforms every other battery-powered hotspot on our list. That said, there are some limitations that come with the lower cost.

Amazon : NETGEAR Nighthawk M1 4G LTE WiFi Mobile Hotspot (MR1100-100NAS) - Up to 1Gbps Speed, Works Best with AT& T and T-Mobile, Connects Up to 20 Devices, ...
