

Battery for the tail device

It has a brand new battery and the alternator is warning fine. I've determined there is a parasitic draw happening. And I keep nothing plugged into the outlets, so it's something else. Removing the fuse "Module 9" seems to be the primary source of the draw. Module 9 fuse functions the following: Front A/C Control Module, Low DC-DC Converter (Audio), Power Tail ...

Battery type: lithium polymer (Li-po) Battery capacity: 1500 mAh; Battery power: 11.4 Wh; Battery voltage: 7.6V; Auxiliary functions. Gesture control; Additional app; Obsbot Start app; Memory card type. Micro SD (up to 512 GB) Operating environment. Camera working environment temperature: -10°C-40°C; Battery charging ambient temperature: -10 ...

Are you experiencing bad battery life on your Tail it Kids watch? If you bought the Tail it Kids watch before May in 2018, or at Japan Photo, the watches might have an outdated firmware.
