

Battery logo yellow

If possible, remove the battery for 30 seconds, and then replace the battery. Skip this step if you have a non-removable battery. Charge the device. Charge your device using a Samsung travel charger for at least 1 hour. The battery charging indicator may take up to 10 minutes to appear on the device's screen if the battery is completely depleted.

However, I may have figured it out. Wondered if the external monitor I have plugged into the usb-c port might be impacting this. So I unplugged it and the yellow triangles went away. If that is the case, makes one wonder why that would show up with the power adapter plugged in. Might understand when running on battery. Larry
