SAE J2464(TM) Guides the Approach to Electric Vehicle Battery Abuse . WARRENDALE, Pa. (August 24, 2021) - SAE International today released SAE J2464(TM): Electric and Hybrid Electric Vehicle ...

Every edition includes "Storage & Smart Power", a dedicated section contributed by the Energy-Storage.news team, and full access to upcoming issues as well as the nine-year back catalogue are included as part of a subscription to Energy-Storage.news Premium. About the Author

The project was one of a total eight projects representing 343MW/1,440MWh of battery storage resources selected by Eskom through a competitive tender in mid-2022, along with 60MW of solar PV, aimed at increasing the utility's available capacity as outlined in its 2019 integrated resource plan (IRP).. The buildout of that ...

Energy Storage Canada (ESC) is "thrilled" CIB investment into a battery storage portfolio will enable Indigenous communities to hold a stake. ... executive director of national trade association ESC, commented on the Crown Corporation vehicle for investing in infrastructure's CA\$138.2 million (US\$101.82 million) commitment to three ...

US renewable power developer energyRe has raised US\$1.2 billion in funding for a number of clean power projects, including solar-plus-storage and transmission and distribution work in the US.

Last week the PUC reaffirmed that utilities must put in place their proposals and proposed investments to deploy 500MW of additional distributed energy storage - defined as behind-the-meter or distribution-connected resources - under the Assembly Bill AB2868, which was originally signed by state Governor Jerry Brown in September 2016.

10 MW of battery storage system, which is being developed at a BEL owned property behind the BEL Substation on Pescador Drive in San Pedro, is the first phase of a larger ...

A portfolio of 1,300MW of energy storage was recommended for Germany's transmission networks in a grid development plan for enhancing network stability, produced by the utilities that own those networks. ... That project brings together 17 stakeholders from transmission and distribution system operators, control system ...

The Central American country of Belize is seeking services related to the procurement of a 40MW battery energy storage system (BESS) project. Energy storage news news from Central America and the Caribbean, with Belize seeking consultants for ...

The energy storage system integration arm of Canadian utility Hydro-Québec, EVLO, will deploy 300MWh of battery energy storage systems (BESS) in Virginia, US. "Evolving market demand" leads Hydro-Québec's BESS arm to launch 5MWh product
