Choose from lead-acid, nickel fibre structure (FNC®) or lithium-ion storage technologies - HOPPECKE offers all relevant storage technologies.

First, assess your system's specific needs. You'll want to match the battery chemistry and capacity to your application. Understanding the operating environment is key to optimizing battery performance and extending lifespan. Batteries perform optimally at around 77°F (25°C). But in industrial settings, they often face extreme temperatures.
