While opportunity recognition is similar to entrepreneurial idea generation, which is the step in entrepreneurship that involves coming up with ideas, it is not the same. In opportunity recognition, entrepreneurs are not yet coming up with ideas. Rather, they are recognizing an opportunity to execute a future idea or fill a gap in the market.

Technology and Innovation. Technology and innovation are essential to our efforts to meet the world's energy needs in a competitive way. If we do not develop the right technology, do not have access to it or do not deploy it effectively, this could have a material adverse effect on the delivery of our strategy and our licence to operate (see "Risk factors").
