Home solar isn't cheap: If you pay for it upfront, you'll spend about \$30,000 on average before incentives. But the federal tax credit cuts this price by 30%, down to around \$21,000, as long as you have a big enough federal tax bill. Some states, towns, and utility companies even offer additional incentives and rebates.

Drawbacks: While prices vary by installer and project type, the Home 8 tends to be on the expensive side. Best DC-coupled batteries. The major advantage of DC-coupled batteries is much higher round-trip efficiency, which can add up to longer backup power and greater bill reductions.
