This week, the European Commission will almost certainly impose substantial interim tariffs on solar panels that it believes Chinese firms are dumping in the EU. This column explores the recent history of this case, including public clashes not only between the Commission and China but also between EU member states and Brussels. What's actually new in this case ...

The EU applied anti-dumping measures on Chinese solar cells, wafers and panels in 2013, only to lift them five years later to increase supply and meet renewable energy goals. Europe produces fewer ...

Back in 2012, the U.S. International Trade Commission imposed anti-dumping tariffs on solar modules made in China. Before that, the anti-dumping duties were not applied to solar modules made with cells produced out of China. Since June 2014, however, these products were also required to be subject to anti-dumping charges. Prices differ by ...

New Hampshire, U.S.A. -- The U.S. Department of Commerce on Thursday announced stiff anti-dumping tariffs of around 31 percent on crystalline silicon solar panels imported from China, leading to a new round of concerns on how the duties will impact the growing American solar industry. In its preliminary determination, the DOC set duties at 31.14 ...

Duties have been set at 11.8% until 6 August 2013. From ...

The current China-wide rate for anti-dumping duties is 238.95% and for countervailing duties is 15.87%. Many manufacturers are subject to significantly lower anti-dumping duties after demonstrating to Commerce

China anti-dumping solar panel brands

that their dumping margins are lower than the China-wide margin. Chinese-made panels are considered "dumped" if they are sold in the ...

Recently, the U.S. Department of Commerce (DOC) issued a decision to partially revoke the anti-dumping and countervailing duty orders on imported solar energy panels from China related to the solar panel anti-dumping duty order in effect since 2012.. According to the DOC's decision (resulting from a review of changed circumstances initiated by solar energy panel ...

In 2012, the EU imported solar panels from China worth about \$15.0 billion. As against the dumping rate of 88 per cent on an average, reduced duty level of 11.8 per cent will be introduced for two months. After that, duties ranging from 37.2 per cent to 67.9 per cent (averaging 47.6 per cent) will be levied on solar panels from China. As per ...

SUMMARY: On August 8, 2022, the U.S. Department of Commerce (Commerce) received a request for revocation, in part, of the antidumping duty (AD) and countervailing duty (CVD) orders on crystalline silicon photovoltaic products (solar products) from the People's Republic of China (China), from Shenzhen Hello Tech Energy Co., Ltd. (Hello Tech) with ...

The Directorate General of Trade Remedies has started an anti-dumping investigation of imports of aluminium frames for solar panels and modules from China. The investigation has been started on a ...

Five years ago, the European Union imposed provisional anti-dumping tariffs on Chinese solar panels. Since then, Brussels and Beijing defused this dispute. Dr Coraline Goron from the University of Oxford China Center demonstrates this in an article in the China-EU Law Journal, the China-EU School of Law's research magazine.

Mumbai: DGTR has recommended anti-dumping duty of up to \$577 per tonne for five years on imports of aluminium frames for solar panels from China. The probe was carried out through the Directorate General of Trade Remedies (DGTR), which is the investigative arm of the Ministry of Commerce and Industry.

Q) How much will solar module prices increase by if anti-dumping duties are enforced? A) Anti-dumping duties can increase imported module prices by approx. \$ 0.04-0.05/W. Modules from Indian cell suppliers such as Adani, Websol and Indosolar ...
