City round solar panel selling price

Depending on your state and how much power your solar panels produce, what you make by selling solar energy back to the grid might vary. But on average, you can make about \$50-\$700+ per month. How much you actually get paid is dependent upon factors like how big your system is and what time of day it is producing energy.

In my case, my roof was only 5 years old so it should outlast my panels. But, if you did have to replace your panels, you'd have to hire a solar installer to remove them first and then reinstall them once the roof work is done. Also, the tiles under the panels will tend to last longer since they are somewhat protected by the panels.
