

India is now considering imposing safeguard duties on the import of solar cells and modules from China and certain other countries, while it continues contemplating imposing anti-dumping measures.

Taiwan-based solar cell makers who have considered withdrawing their applications for the US Department of Commerce (DOC) to review the anti-dumping tariffs imposed on them since December 2014 will change their minds after seeing a major concern removed, according to industry sources.

The US Department of Commerce (DOC) has clarified its position on the anti-circumvention solar investigation, saying it would allow the import of modules manufactured in third countries using...

On May 15, 2024, the U.S. Department of Commerce (Commerce) announced the initiation of antidumping (AD) and countervailing duty (CVD) investigations of crystalline silicon ...

On May 14, 2024, in response to a petition by several producers of silicon photovoltaic solar modules, the US Department of Commerce (the "Department" or "Commerce") initiated ...

Wind and solar only accounted for 0.07% and 0.4%, respectively. At the end of 2022, Colombia had a hydroelectric installed capacity of 12 265 MW and an installed capacity of 570 MW of solar PV and 38.4 MW of wind. Colombia has unique potential to expand hydropower thanks to its ample river water resources.

The American Alliance for Solar Manufacturing Trade Committee (Alliance) filed a petition with the US International Trade Commission (ITC) and the US Department of Commerce (Commerce) for the imposition of antidumping and countervailing duties (AD/CVD) on US imports of crystalline silicon photovoltaic (c-Si PV) cells, whether or not assembled into modules, from Cambodia, ...

On December 2, 2022, the U.S. Department of Commerce (Commerce) issued a preliminary determination in its circumvention inquiry regarding crystalline silicon photovoltaic cells (Solar Cells) and ...

Q) How much will solar module prices increase by if anti-dumping duties are enforced? A) Anti-dumping duties can increase imported module prices by approx. \$ 0.04-0.05/W. Modules from Indian cell suppliers such as Adani, Websol and Indosolar ...

The European Commission today launched an anti-dumping investigation into imports of solar panels and their key components (i.e. solar cells and solar wafers) originating in China. EU Pro Sun, an industry association, claimed in its complaint lodged on 25 July 2012 that solar panels and their key components imported from China enter the European

On October 1, 2024, the U.S. Department of Commerce (Commerce) announced its preliminary affirmative determinations in the countervailing duty (CVD) investigations of crystalline ...

On May 14, 2024, in response to a petition by several producers of silicon photovoltaic solar modules, the US Department of Commerce (the "Department" or ...

On May 14, 2024, in response to a petition by several producers of silicon photovoltaic solar modules, the US Department of Commerce (the "Department" or "Commerce") initiated antidumping ("AD") and countervailing duty ("CVD") investigations of solar cells, whether or not assembled into modules, from Cambodia, Malaysia, Thailand, and the Socialist Republic of ...

Countervailing duties tend to be lower than anti-dumping duties, a form of tariff meant to keep overseas producers from selling at below market prices. ... "Imposing tariffs on solar cell imports ...

The rumors were true: A new petition has been filed to the U.S. International Trade Commission (USITC) and the U.S. Department of Commerce (DOC), to apply new tariffs (both anti-dumping and countervailing duties) to ...

Commerce found that certain Chinese producers are shipping their solar products through Cambodia, Malaysia, Thailand, and/or Vietnam for minor processing in an attempt to avoid paying antidumping and countervailing ...

For instance, polysilicon wafers, which are processed to make solar cells, are almost entirely produced in China. In contrast, US manufacturers account for a small portion of the solar supply chain, ... In 2012, the Obama administration imposed tariffs on Chinese solar manufacturers under anti-dumping and countervailing duty (AD/CVD) laws. AD ...

The alliance claims that since submitting an application in April to the US Department of Commerce to impose anti-dumping and countervailing investigations on Southeast Asian solar cells, cell imports from Vietnam and Thailand have surged by 39% and 17% respectively. This application aims to impose high tariffs on products from Vietnam ...

On April 30, 2024, the International Trade Commission (& Idquo;ITC& rdquo;) and the U.S. Department of Commerce (& Idquo;Commerce& rdquo;) noticed that they are once again conducting a preliminary investigation into the import of crystalline silicon photovoltaic (& Idquo;CSPV& rdquo;) cells and modules from Cambodia, Malaysia, Thailand, and Vietnam. ...

The U.S. Department of Commerce (Commerce) published in the Federal Register of July 5, 2024, notice of the final results of the 2021-2022 administrative review of the antidumping duty (AD) order on crystalline silicon photovoltaic cells, whether or not assembled ...

Memo: EU imposes provisional anti-dumping duties on Chinese solar panels The European Commission today decided to impose provisional anti-dumping duties on imports of solar panels and key components (i.e.

cells and wafers) from China. An investigation found that a Chinese solar panel is sold to Europe far below its normal market value.

India has initiated investigation on a petition by the Indian Solar Manufacturers Association (ISMA) to impose an anti-dumping duty on imported solar equipment.

For instance, polysilicon wafers, which are processed to make solar cells, are almost entirely produced in China. In contrast, US manufacturers account for a small portion of the solar supply chain, ... In 2012, the Obama ...

The Petition. On April 24, 2024, the American Alliance for Solar Manufacturing Trade Committee ("Petitioners") filed antidumping duty ("ADD") and countervailing duty ("CVD") petitions on imports of crystalline silicon photovoltaic ("CSPV") cells from Cambodia, Malaysia, Thailand, and Vietnam.

Preceding the findings, on March 20, the DOC clarified the scope of the anti-dumping investigation (as well as the related countervailing duty complaint), to consider not only imports of solar ...

India terminates anti-dumping probe into solar cell imports from China, Thailand & Vietnam 14/11/2022 09:31 New Delhi, Nov 13 (PTI) The commerce ministry has terminated an anti-dumping investigation into import of solar cells from China, Thailand and Vietnam following a request from the Indian Solar Manufacturers Association(ISMA). ...

SUMMARY: On March 6, 2017, the Department of Commerce (the "Department") published its notice of initiation and preliminary results of changed circumstances reviews ("CCRs") of the antidumping duty ("AD") orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, ("solar cells") from the People"s Republic of China ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModulelTech conference dedicated to the U.S. utility scale solar sector.

6 · US producers of crystalline silicon photovoltaic (CSPV) cells and modules submitted petitions on April 24, 2024 to the US Department of Commerce (DOC) and US International ...

In a memo addressed Friday 25 March 2022, the DOC"s team leading on antidumping and countervailing duty operations recommended that the department investigate ...

The solar panel market is facing scrutiny due to foreign anti-dumping and countervailing duties, particularly in Vietnam. Foreign investors dominate the billion-dollar market, leading to concerns about the impact on the US solar industry.
