3.2%· Save time and money by replacing the need for multiple battery sizes with battery converter shells. Strongly recommend the use of high-energy Alkaline or Nickel Metal ...

Car battery recycling is the right thing to do -- for the industry and the environment. The average car battery weighs 40 pounds, and every bit of it can be recycled. In fact, your current car battery is made of mostly recycled car batteries. The plastic case, the liquid electrolyte, even the lead metal itself all comes from old batteries.

Electronic Devices: Battery converters offer versatility in adapting different battery sizes to fit electronic devices. For instance, converting AAA batteries to AA size enables their use in remote controls, toys, or portable radios, ...
