It is set to create several hundred direct and indirect jobs while enabling Cote d'Ivoire to increase the share of renewables in its energy mix. Upping electricity rates in Cote d'Ivoire Sangafowa-Coulibaly also noted that the country's electricity sector master plan for 2040 shows it wants to triple electricity production capacity ...

The Government of the Republic of Cote d'Ivoire (hereinafter the Recipient) intends to implement the ECOWAS Access To Electricity and Battery Energy Storage Systems (ECOREAB) Project ...

The government signed a partnership agreement on 4 October creating a consortium headed by France's Total to build a liquefied natural gas (LNG) import terminal. "The arrival of LNG in Cote d'Ivoire opens a new era in the production of electricity," energy minister Adama Toungara said at a signing ceremony in the commercial capital Abidjan.

Plans for future LNG supply to Cote d'Ivoire are materialized by the creation of the Cote d'Ivoire LNG consortium led by Total, which has been awarded a 3 million tons regasification project in 2016. In the model, primary supply of natural gas can then be extended if needed using LNG imports as a technical option.
