

Damascus Battery Procurement Project

The foundation of a successful battery energy storage system (BESS) project begins with a sound procurement process. This report provides insights into the art of assessing the need for and value of BESS and presents a procurement framework. It is intended for electric cooperatives which have limited experience with BESS deployment.

To avoid major setbacks to the timeline and budget of a BESS project, it is important to recognise and plan for potential procurement risks. Prior to executing a battery ...
