Installers, EPCs and solar brokers looking for wholesale deals can request quotes from multiple sellers by joining online exchanges or partnering with a solar equipment broker. For example, EnergyBin members who send out RFQs for their material lists receive an average of 5-10 quotes within one business day.

Solar Equipment product price in India ranges from 280 to 1,00,00,000 INR and minimum order requirements from 1 to 1,000. Whether you're looking for IYSERT SMART SOLAR BENCH, Solar Equipments, Heavy Duty Industrial Poe Solar Film Machine etc, you can explore and find the best products from Tradeindia.

In the direct sales model, the product or service can't be found by other means. So, the salesperson is a customer's only connection to the product they want to purchase. For example, if you're a SaaS company selling a software product to other companies, their connection to your product will be through your website or your sales team.

The Direct Sales Model is a crucial component of the Business Model Canvas, a strategic management and entrepreneurial tool that allows businesses to describe, design, challenge, invent, and pivot their business model. This model, which focuses on selling products directly to consumers, bypasses the traditional retail environment and can lead to substantial revenue ...
