As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced an initiative to ensure cybersecurity is integrated into the development of clean energy solutions. WASHINGTON, DC -- As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced an ...

On July 31, 2023, DOE's Grid Deployment Office (GDO) released a Funding Opportunity Announcement (FOA) for up to \$450 million to support residential solar PV and battery storage installations and offer consumer protection and education resources.

Description On March 25, 2021, the U.S. Department of Energy (DOE) announced the Solar Energy Technologies Office (SETO) Fiscal Year 2021 Photovoltaics and Concentrating Solar-Thermal Power (FY21 PV and CSP) funding program, which will provide \$39.5 million for projects that will advance solar PV and CSP research and development (R& D) and help eliminate ...

Energy storage tenders in July 2021 saw 24 tenders announced, marking a rise of 4% over the last 12-month average of 23, according to GlobalData's power industry tenders database.

Latest Energy Storage RFPs, bids and solicitations. Bid on readily available Energy Storage contracts with the best and most comprehensive government procurement ...

WASHINGTON, D.C. -- U.S. Secretary of Energy Jennifer M. Granholm today announced the U.S. Department of Energy (DOE)'s new goal to reduce the cost of grid-scale, long duration energy storage by 90% within the decade. The second target within DOE's Energy Earthshot Initiative, "Long Duration Storage Shot" sets bold goals to accelerate breakthroughs ...

There were 53 energy storage tenders announced in the North America region in Q4 2021, marking a rise of 26% over the last four-quarter average of 42, according to ...

More recently, Evlo Energy Storage Inc. announced, on October 5, 2023, that it will provide the Ontario grid with 15MW energy storage capacity through an equipment supply agreement with solar project developer SolarBank Corporation.

We have announced the results of Tender Round 3 - generation and long-duration storage infrastructure in NSW. Five projects representing 750 MW of renewable energy generation and 524 MW (4,192 MWh) of long-duration storage have received Long-Term Energy Service Agreements following AEMO Services' rigorous two-stage tender assessment process.

The Long-Duration Energy Storage (LDES) portfolio will validate new energy storage technologies and enhance the capabilities of customers and communities to integrate grid storage more effectively. DOE defines LDES as storage systems capable of delivering electricity for 10 or more hours in duration.
