

Explanation of the Rooftop Solar Property Law

By Howard Fischer | Capitol Media Services A major Arizona utility's can be held liable for violating antitrust laws through its policies of charging higher rates for electricity to its customers who choose to install rooftop solar panels, a federal appeals court ruled Monday. In a unanimous decision, a three-judge panel of the 9th [...]

President Biden signed the Inflation Reduction Act into law on Tuesday, August 16, 2022. One of the many things this act accomplishes is the expansion of the Federal Tax Credit for Solar Photovoltaics, also known as the Investment Tax Credit (ITC). This credit can be claimed on federal income taxes for a percentage of the cost of a solar photovoltaic (PV) system.

Its opposition to solar isn't unusual. Some homeowners' associations are concerned that solar panels will reduce property value, even though the opposite is true: rooftop solar actually increases home values by an average of \$15,000. In fact, North Carolina even exempts the increase in property value due to rooftop solar from property taxes.

Right to Sell QF Energy or Capacity to a Utility. QFs have the right to sell energy and capacity to a utility (see 18 C.F.R. § 304), provided the purchasing utility has not been relieved from its QF purchase obligation (see 18 C.F.R. § 309-311). With limited exceptions, QFs generally have the option of selling to a utility either at the utility's avoided cost or at a ...
