Discover how Solar Fields solar solutions bring substantial savings to your home. Our expert team specializes in harnessing renewable power, reducing energy costs through affordable ...

Low and Lou (Astrophys. J. 352, 343, 1990) presented a family of nonlinear force-free magnetic fields that have established themselves as the gold standard for extrapolating force-free magnetic fields in solar physics. Building upon this important work, our study introduces a novel grid-free machine-learning-based method to effectively solve the equilibria ...

In the above equations,  $\theta$  and  $\phi$  are the heliographic colatitude and longitude, respectively.  $P_n^m$  are the Legendre polynomials, and  $g_{nm}$  and  $h_{nm}$  are the harmonic coefficients obtained from the distribution of  $B_r$  at the
