

Folding solar rechargeable lithium battery

A lithium-ion or Li-ion battery is a type of rechargeable battery that uses the reversible intercalation of Li⁺ ions into electronically conducting solids to store energy. In comparison with other commercial rechargeable batteries, Li-ion batteries are characterized by higher specific energy, higher energy density, higher energy efficiency, a longer cycle life, and a longer ...

The Hampton Bay Lithium Phosphate Solar Rechargeable battery comes in a package of two. These 14430, 3.2-Volt batteries are designed for solar landscape lighting and are charged by the light's solar panel with no other equipment necessary. These batteries are intended for use only with solar landscape lighting products.
