I bought a everstart platinum battery with a 4 year free replacement warranty on 4-07-2023 It is now 6-20-2024. I used Walmarts app to purchase it and used PayPal for the payment. Now I've been trying to exchange it for about 4 hours and spoke with the automotive department, customer service in the store and there 800 number.

When it comes to vehicle maintenance, "normal" is determined by a number of factors that exist in theory but rarely come to pass. For instance, a battery has an average normal lifespan of four years under normal conditions. "Normal" in this case means the battery goes through full charge cycles, isn't subjected to extreme temperatures, is attached to a reliable and consistent ...

Where I live, batteries usually make it to at least four or five years. What is the average life of a car battery? On average, a car battery lasts from 5 to 7 years. The battery lasts longer if the vehicle is driven daily and the battery is kept fully charged. ... Several car owners commented on our FB page that their battery lasted for over 11 ...

This battery has a 4-year life in rescue-ready mode, with a full 4-year manufacturer's warranty. Defibtech brand AEDs operate on batteries only, making it important to leave the battery in the AED, keeping it in "Rescue Ready" mode. We recommend always having a fully charged spare battery in case it is needed.

My battery was fine one day, then down to about 11.7 volts the next. This happened during our first couple of 90 degree days this year. It's a "five-year" battery that is just shy of four years old. It took 16 hours with a battery tender to get the battery back up to charge. I removed the battery from the charger and took it to a
