

Global Battery Network Service Content

The GBA envisions a global solution to provide transparency, accountability, and circularity in the battery value chain: the Battery Passport. The Battery Passport will both certify compliance with greenhouse gas emission legal and societal expectations and clearly differentiate more valuable batteries in the market based on their sourcing impact and performance.

Following publication of the Global Battery Alliance's Greenhouse Gas rulebook for the battery passport, which has already been the result of collaborative, multi-stakeholder efforts, the GBA is now seeking comments from external stakeholders, with a view to
