DC 12V Internal Battery Backup (1) Battery type Rechargeable lead-acid battery (12V 2.0Ah X2) (2) Charging time Time-Minimum of 4 hours for full charging (3) Battery charging During AC Power Supply operation of the ...

3. Battery Health: While a voltage reading of 50 to 52 volts indicates healthy batteries, it is important to conduct further tests to assess their overall health. These tests may include measuring the battery's capacity, checking for any signs of physical damage or corrosion, and evaluating the battery's ability to hold a charge.
