

Is the Nano Blade Battery any good

With the Blade's Nano QX, now shipping, the team at Blade has put together a great "Tips and Tricks" video starring the one and only "Tator," Steven Petrotto. ... I'm afraid this Nano QX is quite captivating. I like it that my older DX6i seems to be a good Tx for it. Now I want a bigger quad to fly outdoors, and a bigger room to fly the Nano ...

The battery telemetry comes in handy by providing an early warning to land. I set the alert at 3.5 volts, where the transmitter starts notifying me of impending battery depletion and to stop mucking around in the air. The Nano S3 is a fun-to-fly micro helicopter that can be flown indoors or outside.

Nano blade technology - high cutting capacity of 65mm ; Versatile - the ability to cut in two directions and produce plunge cuts with ease ; High precision - low vibration for accurate straight line cuts ; Low maintenance - self tensioning chain and no oil lubrication needed ; Quick & efficient - ...

Overview. The best micro RC collective pitch helicopter gets even better! Like the Nano CP S model before it, the Blade's Nano S2 heli lays a path to 3D aerobatic expertise that's paved for success -- with new features, including a redeveloped stabilizing system, that make challenging maneuvers such as flips and inverted flight easy for pilots at all skill levels to master.

I've had very good results with PowerHobby and GensAce or generic Chinese no-name batteries. Tiny lipos like these have many of the same issues that larger batteries do, but on different ...

Page 166-Discussion Blade Nano S2 Micro Helis

Don't waste your money on DX5e. Get nano RTF with DX4e. There is No advantage with DX5e. Nothing wrong about DX5e as I use them on Blade MQX/MSR-X/MSR. The DX6i makes this little bird shine big time. Plus they now have a bl upgrade kit for Nano. Best bet would get DX6i and bnf Nano if you could. Most

Bummer especially since mine flies best for first two minutes when battery is fresh. After 2 1/2 to 2 mins the motor/battery really seems to struggle. Fly's around just fine but can't handle any thing aggressive. I'll do the mod tomorrow and report back. Read Bladescrapers tutorial and seems pretty straightforward.

SDS enables quick and easy keyless saw blade changes; Ideal for fast freehand cutting in wood, wood-based materials, and plastics; Cordless mobility offers freedom of movement; hanging ...

NanoBlade is a sawbar with a revolving micro-chain that eliminates vibration and makes sawing easy and precise. Learn how Bosch developed this innovative concept with user feedback and patents.
