## Low voltage distribution cabinet GGD power generation solar panel price list

Therefore, it can serve as an updated product for low-voltage switchgear equipment. GGD-type AC low-voltage distribution cabinet conforms to standards such as IEC61439-17, "Low-voltage switchgear and control gear assemblies," GB7251.1, "Low-voltage switchgear and control gear assemblies," and others.

The products with high breaking capacity, dynamic thermal stability, electrical flexible, convenient combination, a series of practical., novel structure, high protection level, which can be used as a replacement of low voltage switchgear. GGD AC low voltage distribution cabinet is accords with the standards IEC60439 &lt;Low voltage complete switch ...

This product suitable for the power consumers of the power plant the transformer substation the industrial enterprises. Whole electrical distribution system with AC 60Hz 380V rated working voltage 3150A rated working current and it is used as the electrical power conversion distribution and control for the power equipment, the lighting equipment, and power distribution equipment.
