

Make a battery cabinet drawing at home

Or, you can always have the wood cut by a pro. Also, don't forget to order a pack of hinges (four in total), handles for the cabinet doors, and latches to keep the doors closed. And one more thing: the 10-pointed star cutout does make the cabinet look better, but it's only optional. You're free to add whatever wood detail you see fit.

Everybody knows how you can make a battery from a lemon. You can also make batteries from cola or salt water. The problem is, these batteries have a low voltage. You can make a high-voltage battery using electrochemistry.
