A quotation is not the same thing as a legally enforceable contract. According to the principles of contract law, only offers are regarded as being legally binding, and a quotation is not the same thing. Having said that, accepting a quotation has the potential to initiate the formation of a legally enforceable deal if certain requirements are met.

By comparing multiple solar quotes based on price, equipment quality, financing options, system design, warranty, and service, you can make an informed decision that aligns with your needs and budget.
