The Jackery SolarSaga 100 continues to be our favorite solar panel for camping. This 100-watt panel is easy to use, lightweight, and effective in both full and partial sun. It's less expensive than many competing models, but works better than those models. Whether it's a sunny day or cloudy outside, this solar panel charges devices with impressive speed.

How long would it take to charge an electric car with a portable solar panel? Charging an electric car with a portable solar panel can take several days, depending on the panel size, sunlight availability, and number of solar panels. A typical solar panel generates around 100-300 watts per hour, while electric cars need 30-50 kWh for a full charge.

Go green with Jackery portable and foldable solar panels. The highest monocrystalline cell efficiency,
