I'm replacing 1-inch diameter, multi-section, twist-lock capacitors in several vintage radios. Values are 80, 60, 40 uF, but I don't have to match that exactly. I expect to have to add caps in parallel. Does Digi-Key have anything close? 1-inch diameter is hard to find.

Capacitor Failure: Look for signs of damage like bulging or leakage. Replace damaged capacitors with ones of the same or higher rating. Training and Awareness: Ensure proper training and awareness of risks. Have ...

I needed to purchase quality solder iron plus tips, solder wick, and review how to desolder capacitors. Taking out the bad fuse and the rectifier were relatively easy, but the capacitors were covered in silicone, then the old solder on its terminals proved very difficult to melt. In the end, even with temperature of tip at 340, little progress ...

Limitation of capacitors I looked through the service manual and identified the following capacitors that are likely to be responsible for the problem - LEDs go out when the shutter is pressed, the shutter does not fire: C8: 150 uF/3.15 V (Tantalum) - aperture magnet control; C9: 100 uF/3.15 V (Elko) - mirror magnet control; C10: 150 uF/3 V (tantalum) or 220 ...

Where NOT to Buy Capacitors: eBay. You might be tempted by cheap prices found on eBay, but I'd look elsewhere. While you can certainly find capacitors on eBay - the issue of counterfeit capacitors (cheap generic capacitors relabeled as high-quality name brands) by unauthorized sellers makes eBay a problematic choice.
