Solar House Ventilator

DC HOUSE 32 Watt Solar Attic Fan Solar Powered Roof Exhaust Fan Up to 3000 Sq Ft, 2500 CFM Metal Shell Solar Vent with Brushless Motor, Hail and Weather Resistance Share:

Give some thought to airflow direction under the house. Use the solar sub-floor ventilator to provide a cross-flow where fresh air is drawn in at one side, and the damp air is expelled from the other. Consider whether you need to make extra openings to assist in this cross flow of air. Air will always take the shortest path.
