When you combine a solar-powered travel trailer with a generator, the primary source of power becomes the sun. When the sun is out, power is freely flowing (and yes, that was a pun). There's nothing better than free, clean, and silent power. Of course, the sun does not always shine, and it's a beautiful thing to have planned for that moment.

Universe Today readers are well-versed in the difficulties of interstellar travel. Our nearest neighboring solar system is the Alpha Centauri system. ... Romanovskaya writes: "Stars with 1-7 times solar mass undergoing the post-main-sequence evolution, as well as a supernova from a 7-20 times solar mass progenitor, can eject Oort-cloud ...
