2000 Watt solar generators are the most demanded and searched solar generators, due to their right size for the average power requirement of homes and outdoor activities. However, there are limited options for the 2kW range solar generators available in the market. Furthermore, before making the purchase you need to learn some limitations and ...

The ratings for batteries, solar panels and inverters are for their maximum output. Do not expect to get these results every hour every day. Always make sure to have reserve power at hand. A 2000 watt inverter may have a surge capacity of 4000 watts. But if the solar panels can only supply 2000 watts, you cannot use this feature.
