Shanghai New International Expo Center. Exhibition area: estimated 70,000 sq.m. Exhibiting brands: estimated 1,000+

The 14th Shanghai International Energy Storage Lithium Battery and Power Battery Conference and Exhibition 2025 will be held at the Shanghai New International Expo Center from August 13-15, 2025. This exhibition aims to accelerate the development of the new energy vehicle industry and the power battery industry.

Make the most of this growth at CES Europe, where you will find the companies who are shaping the future of battery production. Join us on May 7-9, 2025 in Munich as an exhibitor and highlight your battery production solutions in our special battery production technologies area. Your Own Booth in the Battery Production Technology Area

ees South America presents future-ready solutions for renewable energy storage and advanced battery technology, stationary electrical energy storage solutions as well as battery systems. Here you'll find the exhibition segments in detail. Energy storage technologies. Lithium-based batteries; Lead-based batteries; Redox flow batteries

This paper presents the feasibility of greater renewable energy penetration in Tarawa, Kiribati, using green hydrogen. Using the load profile for South Tarawa, different scenarios are compared for their Net Present Cost (NPC) and Levelized Cost of Energy (LCOE) using the HOMER Pro software. With a lack of feasibility studies on different energy storage methods for Kiribati - ...
