Capacitor Reference - PowerBook Duo 280c. The display capacitors are frequently replaced with ceramic capacitors. These may work, but have been shown to result in drifting contrast on certain LCD displays. This is caused by ceramic capacitors' characteristic where the capacitance varies based on voltage load. As such, I would recommend ...

I'm trying to make my first PCB but I'm having trouble finding parts like resistors, capacitors, etc from local stores. Call me old fashioned but I'm not a huge fan of ordering online because I like to just go out and just get the parts instead of waiting a few weeks. I've already checked places like GigaParts and Hobby Lobby type stores.
