drink. If you prefer whiskey over vodka, focus your attention on diversifying your whiskey ...

Place the cabinet near an exit so it can be easily moved outside in case of a fire inside the cabinet. Purpose-built lithium-ion battery storage cabinets are heavy, about 500 kg, so make sure you have a cabinet with an integrated base to evacuate the cabinet with a forklift, both in case of a fire and if the cabinet needs to be moved for other reasons.

However, you don't need to include everything, and your home bar should be customized to what you actually drink. If you prefer whiskey over vodka, focus your attention on diversifying your whiskey selection. The same goes for liqueurs and nonalcoholic mixers. After all, there's no need to stock something you are not going to use.

Even if you have to buy 1 or 2 tools to build you cabinets, you can save thousands of dollars over pre-fab and a whole lot more over custom cabinets. No unsightly spacers. You can build your cabinets to any dimension, unlike pre-fab cabinets that typically come in increments of 3" leaving gaps that need to be filled with spacers.
